**EXPENDITURE EXPLANATION**

Proposed law will result in a significant one-time increase in expenditures, estimated to be approximately \$100,000 SGF, to make various adjustments to the Louisiana Ethics Administration Disclosure and Electronic Reporting System (LEADERS) and for the agency to conduct an investigation of campaign finance best practices.

Proposed law makes various changes to the campaign finance laws including but not limited to allowing for independent expenditure-only political committees, increasing various contribution limits, and setting up a system to designate political contributions for a specific election. The Ethics Administration reports that proposed law will require a significant restructuring of LEADERS. The agency will need to contract with a professional service for computer programmers to implement the overhaul of the system. The Ethics Administration estimates the cost of the contract to be approximately \$95,000 in FY 25.

Proposed law directs the Board of Ethics to conduct an investigation and analysis of best practices to modernize Louisiana's campaign finance and disclosure system. The Ethics Administration estimates the cost of studying and analyzing best practices to be \$5,000 in FY 25.

For subsequent fiscal years, the Ethics Administration estimates the costs to implement proposed law to be nominal and can absorb any increase in their operating budget.

**REVENUE EXPLANATION**

Proposed law may result in an indeterminable, but likely minimal, increase in state general fund revenues as a result of increasing the daily penalty for failure to file, or failure to file in a timely manner, financial disclosure statements from \$100 to \$250 per day. NOTE: Penalties and fines imposed for the violation of these provisions are considered income not available to the Ethics Administration; thereby, accrue to the State General Fund.
