HB 9 Original

2024 Third Extraordinary Session

Riser

Abstract: Imposes sales and use tax upon certain digital products and digital services.

Present law imposes a state sales and use tax upon the sale, use, lease, or rental of tangible personal property, and upon the sale of certain services, which tax is composed of the following levies in the following amounts:

R.S. 47:302	2.00%
R.S. 47:321	1.00%
R.S. 47:321.1	0.45%
R.S. 47:331	0.97%
R.S. 51:1286	0.03%

Present law terminates the 0.45% sales and use tax levy effective July 1, 2025.

Present law provides for general conformity of sales and use tax bases (the sets of goods and services subject to tax) of local taxing authorities with the state's sales and use tax base; but authorizes local taxing authorities, individually, to adopt certain sales and use tax exemptions for particular goods and services, allowing for dissimilarity between local bases and the state's base.

Present law imposes sales and use tax upon all tangible personal property which is not specifically exempted from such tax or excluded from the tax base by present law.

Present law does not impose sales and use tax upon services except for those specifically identified and enumerated in present law.

Proposed law retains and relocates provisions of present law identifying and enumerating services subject to state and local sales and use tax.

Proposed law adds to present law all of the following as services to which state and local sales and use tax shall apply:

Present law requires that sales and use taxes on taxable goods and services be collected from any seller who qualifies as a "dealer" as defined in present law.

Proposed law stipulates that solely for purposes of the sale of services which were not subject to sales and use tax prior to Jan. 1, 2025, the term "dealer" shall not include any person who sells a taxable service and whose gross revenue from the sale of services does not exceed, or is not reasonably expected to exceed, \$10,000 during the current calendar year. Provides that when a person's gross revenue from the sale of services which were not subject to sales and use tax in this state prior to Jan. 1, 2025, exceeds \$10,000 during a calendar year, the person shall be deemed a dealer and shall be subject to the requirements of present law relative to collection, reporting, and remittance of sales tax. Provides, however, that the exemption from "dealer" status established by proposed law shall not apply to any of the following persons:

- (1) Any person who, in addition to selling services, sells tangible personal property or taxable digital products.
- (2) Any person whose gross revenue from the sale of services exceeded \$10,000 in any previous calendar year.

Present law provides that the defined term "telecommunications service", for purposes of the imposition of sales and use tax on such service, shall not include ancillary services. Proposed law repeals present law.

Proposed law applies to taxable periods beginning on or after Feb. 1, 2025.

Effective upon signature of governor or lapse of time for gubernatorial action.
