**Abstract:** Extends the state sales tax exemption for adaptive driving equipment and motor vehicle modifications to sales and use taxes; levied by local taxing authorities.

Present law exempts from state sales and use tax purchases of adaptive driving equipment and motor vehicle modifications prescribed for personal use by a physician, a licensed chiropractor, or a driver rehabilitation specialist licensed by the state.

Proposed law retains present law and extends its applicability to the sales and use tax imposed by all taxing authorities, thereby establishing both a state and local sales and use tax exemption for the adaptive driving equipment and motor vehicle modifications.
