HB 624 Engrossed

2025 Regular Session

Berault

Abstract: Transfers family and support programs, such as SNAP and TANF, from DCFS to LWC and renames the Louisiana Workforce Commission (LWC) to Louisiana Works.

Proposed law makes relative changes in statutory provisions where programs and services administered by DCFS are referenced through provisions of present law and changes such references to La. Works.

Title 23 Provisions

Present law provides that LWC is hereby created and established to operate an integrated workforce development delivery system in this state, in particular through the integration of job training, employment and employment-related education and training programs, vocational rehabilitation services, independent living services, and blind services program, and to administer the state's unemployment and workers' compensation programs.

Proposed law extends the areas of expertise operated by LWC to include social service eligibility determinations, benefit payments, disability determinations, and supplemental nutrition and certain family support programs. Proposed law otherwise retains present law.

Present law defines "commission", "council", and "secretary".

Proposed law removes the definition for "commission" and adds definitions for "customer", "department", "SNAP", and "TANF". Proposed law otherwise retains present law.

Proposed law provides that the legislature recognizes that LWC provides services to support individuals with various needs and in various stages of life.

Proposed law provides that, despite this, the conventional service delivery system of requiring individuals to access various offices within the state creates a barrier for the delivery of those services and entry into the workforce. Proposed law further provides that these barriers can be resolved and individuals' needs can be met by utilizing an integrated case management at a single service location with a single case worker.

Proposed law defines "integrated case management", "integrated service plan", and "service integration".

Present law enumerates the powers and duties which may be conferred upon the secretary by law.

Proposed law adds to this enumerated list the following powers and duties which may be completed by the secretary:

- (1) Administer and supervise all forms of public assistance, including assistance to needy families, supplemental nutrition benefits to individuals in need, and any other public assistance activities or services that may be or may later be within the department's purview.
- (2) Promulgate all necessary rules and regulations for the purposes of carrying out provisions of law relative to public assistance.
- (3) Oversee the organization and supervision of field offices, by providing any necessary services, materials, or additional assistance and personnel needed to the offices in order to ensure effective administration of public assistance functions; and to designate such offices to serve as its agents in the administration of public assistance activities in its respective parishes.
- (4) Employ additional personnel as necessary in order to establish a sufficient number of audit teams for the purpose of investigating public assistance customers whose initial eligibility or continued eligibility is difficult to determine.
- (5) Assist other departments, agencies, and institutions of the state or federal government, when so requested, by performing services in conformity with the purposes of present law and proposed law.
- (6) Act as an agent of the state for the purpose of cooperating with the federal government in public assistance matters of mutual concern and in the administration of any federal funds granted in the state to aid in the furtherance of any functions of the department, and be empowered to meet such federal standards established for the administration of federal funds.
- (7) Administer any federal, state, parish, municipal, or private funds made available for public assistance.
- (8) Administer all public assistance funds in the purview of the department, estimate the moneys to be credited to the assistance funds from state and federal sources for the ensuing fiscal year, and allocate the total amount estimated to be available.
- (9) Establish adequate standards for personnel employed in state, regional, or field offices and make necessary rules and regulations in order to maintain minimum standards of service and personnel based upon education, training, previous experience, and general efficiency, which shall be attained by the person appointed to the position.
- (10) Whenever and wherever practicable, enter into reciprocal agreements with public assistance agencies from other states relative to the provisions of public assistance to residents and

nonresidents and cooperate with other states and with any authorized agencies of the federal government in providing aid, provided such agreements are approved by the attorney general.

- (11) Submit to the legislature an annual financial statement accounting for all funds appropriated by the department and for public assistance purposes in its purview, including specific purposes for which they are appropriated and a financial statement accounting for all federal funds allotted to the state by the federal government.

Proposed law changes "LWC" to "La. Works", "commission" to "department", and "executive director" to "secretary" when applicable, in addition to requesting the Louisiana Law Institute to change all references of the aforementioned within the Louisiana Revised Statutes.

Present law provides for the integration of services, such as job-training, employment, vocational rehabilitation services, independent living and blind services programs, and employment-related educational programs and functions to be integrated into the workforce development delivery system.

Proposed law amends present law to include social service programs that provide economic stability to unemployed and underemployed individuals to be integrated with the aforementioned programs and services. Proposed law otherwise retains present law.

Present law requires the secretary of LWC to transfer monies, which, if any, are appropriated by the legislature to conduct a workforce facility condition assessment, service market data study or location analysis, and master plan, to the La. Community and Technical College System for the purpose of conducting the aforementioned assessment, analysis, or master plan.

Proposed law revises present law to instead provide that the secretary may contract with any state agency, higher education provider, or any private provider, subject to state procurement rules and regulations, to conduct a workforce economic assessment, if funds are appropriated for that purpose.

Present law requires LWC to provide appropriated local workforce development areas funds for the purpose of workforce training and employment services. Present law further provides that administrative costs may not exceed 10% of the total amount of funds available to LWC for federal grants for the purpose of carrying out local workforce development activities, unless authorized by any other law, regulation, or waiver.

Proposed law repeals present law and instead requires the department, in consultation with the Workforce Investment Council or local workforce development boards, to develop a comprehensive statewide workforce and social services plan that aligns with federal law. - (7) Strategies to ensure program responsiveness, universal access, and unified case management.
- (8) Strategies to provide assistance to employees and employers facing employment discrimination.

Present law prohibits federal grant funding from applying to programs for which governing laws or regulations do not permit the use of such funding, or to programs for which the use of funding is not feasible, as determined by the secretary.

Proposed law repeals present law.

Present law provides that in the case of funds that are allocated to this state or regions of this state through the application of established formulas, the commission shall allocate amounts across the state using the same formula that was used to provide the funds to the state or that region unless an alternate formula is authorized by federal law or any other law.

Proposed law repeals present law.

Present law provides in each area of the state not designated as a local workforce development area or that is designated but the local workforce development board is not certified and a regional and local plan approved by the governor, the secretary shall do each of the following:

- (1) Provide workforce training and services in that area to the extent allowed by federal law.
- (2) Specify an entity, which may be the commission, for the performance of employment services in that area.

Proposed law repeals present law.

Present law provides that, unless required by federal law or superseded by other state or federal law, at least 85% of the funds be allocated to LWC for adult and youth workforce training and services and at least 60% of funds be allocated to the local workforce development board, or appropriate development board, in that area for dislocated worker training and services.

Proposed law repeals present law.

Present law provides that, if a local workforce development board has been certified and a local plan approved by the governor, the funds shall be provided through the formula allocation process provided for in present law. Present law further provides that, unless superseded by federal law, regulation, or waiver, the total administrative costs for local workforce training and services may not exceed 10% of the funds allocated under present law, regardless of whether the training and services are provided through a local workforce development board or through LWC or other entity specified pursuant to present law.
