FUNDS/FUNDING RE SEE FISC NOTE SD EX Page 1 of 1

Provides relative to the administration of the Louisiana Charter School Start-Up Loan Fund and expands the authorized uses of the fund. (gov sig)

Proposed legislation renames the Charter School Start-Up Loan Fund to the Charter School Start-Up and Expansion Loan Fund and adds expansion costs for existing charter school operations and facilities as an authorized use. Removes the requirement that any loans be issued as no-interest loans and authorizes the division of administration (DOA) to be reimbursed using the fund for any costs incurred through its administration of the fund. Directs DOA, in consultation with the Board of Elementary and Secondary Education (BESE) to adopt certain requirements concerning loans issues from the fund. Removes the requirement that the Louisiana Department of Education reduce state payments to eligible charter schools for loan repayment, but authorizes this as an available repayment option. Requires the annual financial statements of eligible charter schools receiving loans to be accompanied by a supplemental schedule and directs the legislative auditor to develop such a schedule including but not limited to specific information as enumerated in proposed legislation. Effective upon the governor's signature.

EXPENDITURE EXPLANATION

Proposed legislation expands the allowable uses of the Louisiana Charter School Start-Up Loan Fund (renamed the Louisiana Charter School Start-Up and Expansion Loan Fund) to include the issuance of loans for existing charter school operations and facilities. Expanding the allowable uses of loans from the fund is expected to increase actual utilization, which may result in the fund balance being depleted more quickly; however, all loan payments, including interest, are to be deposited back into the fund for future loans. The Division of Administration (DOA), with consultation from the Board of Elementary and Secondary Education (BESE), is directed to set the conditions of loans issued from the fund including the term, repayment schedule, and the interest rate charged. Proposed legislation limits the term of loans to no more than the term of a recipient’s charter agreement, limits a recipient to one loan at a time, and limits the amount of loans to no more than \$5 M per loan.

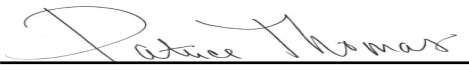

Note: Deposits into the Charter School Start-Up Loan Fund are from private and public donations, grants, appropriations, and loan repayments. Under proposed legislation, interest charged on loans issued will also be deposited into the fund. As of 4/17/25, the balance of the fund is \$506,431.

Proposed legislation transfers administration and operation of the Charter School Start-up and Expansion Loan Fund to DOA. The LFO has requested additional information from DOA concerning impacts to the agency as a result of the transfer and will update this note once it is received. Proposed legislation permits DOA to contract with outside vendors to manage the operation of the fund. Whether contracted or managed by DOA in-house, proposed legislation authorizes that expenses for the administration of the program can be reimbursed from the fund. If DOA seeks reimbursement from the fund, this would constitute an increase in statutory dedication expenditures that, unlike any loans issued, will not be paid back to the fund.

Currently, charter schools that receive loans from the fund are required to submit sworn annual financial statements to the Louisiana Legislative Auditor (LLA). Proposed legislation requires these submissions to be accompanied by a supplemental schedule developed by the LLA. The agency reports this work can be absorbed by existing staff at no additional cost; however, charter schools may realize an increase in the cost of auditing services.

REVENUE EXPLANATION

Proposed legislation removes the prohibition on charging interest on loans issued from the fund. Depending on the interest rate included in DOA loan agreements with recipients, there may be an increase in revenues deposited to the fund as loans are repaid.
