EXPENDITURE EXPLANATION

Proposed law may result in an indeterminable increase in SGF expenditures in the Department of Public Safety and Corrections - Corrections Services (DPS&C - CS) if a person is convicted of second degree cruelty to elderly and persons with infirmities. Proposed law creates the crime of second degree cruelty to elderly and persons with infirmities, and adds it to the class of crimes considered crimes of violence, which requires offenders to serve 85% of the imposed sentence before parole eligibility. Any impact on either State or local expenditures is contingent on whether offenders are imprisoned in State or local facilities. The exact fiscal impact of the passage of this legislation is indeterminable, since it is not known how many people will be convicted or the length of sentences imposed on those who are convicted as a result of the proposed law. The maximum imprisonment term under the proposed law is no more than 40 years.

For those convicted, sentenced, and then subsequently housed in a state facility, DPS&C-CS will sustain expenditures of \$107.60 per offender per day. For those convicted, sentenced, and then subsequently housed in a local facility, DPS&C-CS will sustain expenditures of \$29.39 per offender per day. DPS&C-CS advises that impacts on offender populations are anticipated to impact the number of offenders held in local facilities, and in managing its offender population, it seeks to fill all beds in state facilities first, then assigns overflow offenders to local facilities.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
