ENERGY EG NO IMPACT See Note Page 1 of 1
Creates the Louisiana Energy Protection Act

Proposed law creates the Louisiana Energy Protection Act and generally prohibits any covered civil liability action under Louisiana law for claims seeking damages, penalties, or other relief related to climate change from greenhouse gas emissions. Proposed law includes claims based on fraud, misrepresentation, or failure to warn. Proposed law prohibits such actions from being brought or maintained in any court or proceeding in the state, regardless of when the conduct giving rise to the claim occurred, including claims based on emissions originating outside of Louisiana. Proposed law provides limited exceptions allowing actions only for unlawful acts arising from (1) violations of enforceable Louisiana or federal emissions laws or permits, or (2) violations of enforceable standards under the federal Occupational Safety and Health Act (OSHA) that directly and proximately cause the alleged injury. Proposed law provides that it shall not be construed to create a public or private cause of action and includes a severability provision. Effective upon signature of the governor.
