Provides relative to school-based health center services provided to students

Proposed legislation establishes a framework governing school-based health center services for students. Provides that students may access medically necessary services on school campuses with parental consent and a healthcare provider's determination of need, and prohibits school personnel from restricting such access. Applies to services delivered through school-based health centers or other provider arrangements, but does not require schools to establish or provide such services. Requires school governing authorities to adopt policies that do not create barriers to care, allows services during the school day, including during instructional time, limits disclosure of protected health information, and assigns all service costs to parents or third-party payors.

EXPENDITURE EXPLANATION

Proposed legislation is not anticipated to result in a material direct cost to public school governing authorities, as it does not mandate the provision or funding of school-based health center services and assigns responsibility for service costs to parents or third-party payors. School governing authorities may experience a minor increase in administrative workload associated with policy development and implementation; however, these responsibilities are expected to be absorbed within existing resources.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.

Senate

Dual Referral Rules

- 13.5.1 >= \$100,000 Annual Fiscal Cost {S & H}
- 13.5.2 >= \$500,000 Annual Tax or Fee Change {S & H}

House

- 6.8(F)(1) >= \$100,000 SGF Fiscal Cost {H & S}
- 6.8(G) >= \$500,000 Tax or Fee Increase or a Net Fee Decrease {S}
