EXPENDITURE EXPLANATION

Proposed law would increase dedications to the Louisiana Early Childhood Education Fund by approximately \$3.4 M annually and decrease dedications to the SPORT Fund by an equivalent amount (see revenue explanation below).

Monies deposited into the Louisiana Early Childhood Education Fund are awarded to local entities approved by the State Board of Elementary and Secondary Education for the purpose of funding early childhood care and education slots through the Child Care Assistance Program in Type III early learning centers that have at least one classroom with children age fifteen months or younger if a local entity provides one-to-one funds from nonstate and nonfederal sources.

Monies deposited into the SPORT Fund are appropriated to the Board of Regents for distribution to athletic departments at public universities that are members of conferences that compete in NCAA Division One athletics at the Football Bowl Subdivision and Football Championship Subdivision levels in Louisiana for the benefit of student athletes.

REVENUE EXPLANATION

Based on the most recent REC forecast (12/11/2025), tax revenue from mobile and retail sports wagering is predicted to be \$96.5 M annually from FY 27 to FY 30. Mobile sports wagering makes up about 97% of these revenues, while retail sports wagering makes up about 3%. Proposed law is anticipated to increase dedications to the Louisiana Early Childhood Education Fund by approximately \$3.4 M by dedicating 25% of mobile sports wagering revenues and decrease dedications to the SPORT Fund by an equivalent amount by capping the 25% dedication of mobile sports wagering at \$20 M. *Note: Because both of these funds are statutory dedications, the net impact reflected in revenue table above under statutory dedications is \$0. Actual impacts will vary depending on annual wagering activity and net proceeds. The changes in dedications as a result of proposed law are listed on page 2.
