HB 621 Reengrossed

2026 Regular Session

Coates

Abstract: Requires decommissioning plans to include recycling of renewable energy components or infrastructure to the extent practicable subject to the applicable provisions of the La. Admin. Code.

Proposed law requires that decommissioning plans for renewable energy facilities include recycling of components or infrastructure of the facility to the extent practicable in accordance with provisions of the Dept. of Environmental Quality regulations pertaining to Universal Wastes, Recyclable Materials, and Recycling and Waste Reduction Rules in the La. Admin. Code.

Redesignates the headings of present law provisions providing for batteries, wind energy, and solar power generation facilities.

Effective Jan. 1, 2027.
