

GREEN SHEET REDIGEST

HCR 26

2026 Regular Session

Chenevert

STUDENT/STANDARDS: Requests that the State Board of Elementary and Secondary Education incorporate the science of human growth and development into content standards and to provide curriculum and instructional materials on its website.

DIGEST

Requests that the State Bd. of Elementary and Secondary Education:

- (1) Incorporate the science of human growth and development, including but not limited to prenatal development, into the state content standards for science or health education at an age- and grade-appropriate level.
- (2) Provide age- and grade-appropriate materials and information on its website that may be used in curriculum and instruction related to the standards, including but not limited to videos showing prenatal development.
- (3) Submit a written report to the House and Senate education committees by March 1, 2027, relative to any action taken with respect to the content standards and the clearinghouse as requested in this Resolution.

Requests that the state Dept. of Education to provide scientifically accurate and age-and-grade-appropriate materials and information on its website that have been approved by the surgeon general and may be used in curriculum and instruction related to the standards, including high definition ultrasound video or computer-generated animation that depicts prenatal growth and development.

Summary of Amendments Adopted by Senate

Committee Amendments Proposed by Senate Committee on Education to the engrossed bill

1. Adds request to the state Department of Education to post information on its website.
