

2026 Regular Session

SENATE RESOLUTION NO. 145

BY SENATOR HODGES

STATE DEPARTMENT. Recreates the Task Force on Protecting Louisiana's Critical Infrastructure from Foreign Adversaries.

1 A RESOLUTION

2 To recreate and provide for the Task Force on Protecting Louisiana's Critical Infrastructure
3 from Foreign Adversaries to study real-world threats that foreign adversaries pose
4 to Louisiana's critical infrastructure, including threats to our United States' military
5 bases, oil and gas production and refining facilities, industrial manufacturing plants,
6 energy generation infrastructure, and agriculture and food production lands.

7 WHEREAS, Senate Resolution No. 204 of the 2025 Regular Session of the
8 Legislature of Louisiana created the Task Force on Protecting Louisiana's Critical
9 Infrastructure from Foreign Adversaries; and

10 WHEREAS, in a recent interview by Federal Bureau of Investigation Director Kash
11 Patel stated that over the last several years that an alarming number of parcels of land and
12 buildings that are surrounding United States' military bases have been bought by foreign
13 adversaries, including Russian citizens and members of the Chinese Communist Party; and

14 WHEREAS, on June 3, 2025, Director Kash Patel also announced that a Chinese
15 national, who allegedly expressed loyalty to the Chinese Communist Party and was funded
16 by the Chinese government, reportedly smuggled a dangerous biological pathogen into the
17 United States as an act of agroterrorism; and

18 WHEREAS, the biological pathogen that Director Patel referred to is a fungus that

1 causes a disease known as "head blight" which infects wheat, barley, corn, and rice and can
2 cause significant health issues in both humans and livestock and is responsible for billions
3 of dollars in economic losses worldwide each year; and

4 WHEREAS, Director Patel also stated that, while the federal government has a role
5 to play in protecting our nation from the threats imposed by the Chinese Communist Party
6 efforts to infiltrate American institutions, critical infrastructure, and our food supply, each
7 state must also take proactive measures to address these concerns in order to protect state
8 infrastructures from the Chinese Communist Party's actions; and

9 WHEREAS, the People's Republic of China (PRC) is a one-party rule nation that is
10 controlled by the Chinese Communist Party; and

11 WHEREAS, on April 18, 2024, former Federal Bureau of Investigation Director
12 Christopher Wray stated that the PRC "has made it clear that it considers every sector that
13 makes our society run as fair game in its bid to dominate on the world stage, and that its plan
14 is to land low blows against a civilian infrastructure to try to induce panic and break
15 America's will to resist"; and

16 WHEREAS, in the same speech, Former Director Wray stated that "the PRC's
17 targeting of our critical infrastructure is both broad and unrelenting" and that the PRC is
18 working to "give itself the ability to physically wreak havoc on our critical infrastructure at
19 a time of its choosing"; and

20 WHEREAS, the purpose of compromising this infrastructure is "to cause real-world
21 harm to American citizens and communities in an event of conflict" between the United
22 States and the PRC, according to Wray; and

23 WHEREAS, this real-world harm directly threatens Louisianians because Louisiana
24 is home to a significant number of the United States' military bases, oil and gas production
25 and refining facilities, industrial manufacturing plants, energy generation infrastructure, and
26 agriculture and food production lands; and

27 WHEREAS, study and more work is needed to protect Louisiana's critical
28 infrastructure from foreign threats, in particular threats from the Russian government and
29 the Chinese Communists Party.
