

RÉSUMÉ DIGEST

HR 310

2026 Regular Session

Braud

Urges and requests the Dept. of Conservation and Energy to study the state's expected liability for decommissioning orphan, inactive, and low-production wells; available sources of funding for decommissioning costs; and methods to reduce the risk to taxpayers for these costs. Requires that a written report of the department's findings be submitted to the House Committee on Natural Resources and Environment by March 1, 2027.
