EXPENDITURE EXPLANATION:

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION:

The bill allows into the Quality Jobs program the Charlotte Hornets NBA basketball organization in connection with the memorandum of understanding between the team and the state. The Legislative Fiscal Office is aware of two different calculations made by the Department of Economic Development with regard to the Hornets' access to the program that estimate the amount of annual payroll subsidy that the state might have to provide, should the team be made eligible for the program. These amounts are \$3.592 million per year for ten years or \$4.415 million dollars per year for ten years, and depend on the amount of training, infrastructure, and other costs that will ultimately be part of the agreement between the team and the state. Based on information about the state's costs associated with the arrangement, the lower calculation made by DED appears more relevant as the likely costs of this bill. However, the actual payroll subsidy amount will be determined by the specific Quality Jobs Program contract entered into with the team.

Further explanation of the costs of this bill from an economic perspective may be warranted. The organization affected by the bill is a sports entertainment business. It will sell much of its entertainment service to the local and nearby communities, and will generate taxes from the expenditure flows associated with those sales. Consequently, though, less taxes will be generated by the economic channels from which those community expenditures were diverted. To induce this redistribution of expenditures and taxes the state will provide, through this bill, a payroll subsidy currently estimated at \$3.592 million per year for ten years.

<u>Senate</u> <u>Dual Referral Rules</u>

☐ 13.5.1 >= \$500,000 Annual Fiscal Cost

X 13.5.2 >= \$500,000 Annual Tax or Fee Change

House ☐ 6.8(F)

☐ 6.8(F) >= \$500,000 Annual Fiscal Cost

☐ 6.8(G) >= \$500,000 Tax or Fee Increase or a Net Fee Decrease per year
