
The original instrument and the following digest, which constitutes no part of the legislative instrument, were prepared by Greg Waddell.

DIGEST

Present law allows a pharmacist to administer the influenza vaccination.

Proposed law retains present law but expands the types of vaccinations which can be administered by a pharmacist to include the following:

- (1) Pneumococcal
- (2) Zoster
- (3) Tetanus and Diphtheria Toxoids Adsorbed for Adult Use (Td)
- (4) Tetanus Toxoid, Reduced Diphtheria Toxoid and Acellular Pertussis Vaccine Adsorbed (Tdap)

Effective August 15, 2011.
