Present law provides, relative to the notification that a budget deficit exists in the current fiscal year, that the governor shall have interim budget balancing powers to eliminate the deficit, among others:

1. Reduce executive branch budget unit appropriations by three percent of the total appropriation for the fiscal year.
- 2.. In the event the governor has reduced budgets by seven-tenths of one percent of the total appropriation and the deficit still exists, the governor may make further budget adjustments, as follows:
 - a. The governor may direct reductions of any appropriation or allocation from the state general fund or dedicated funds, including those constitutionally protected or mandated, by an amount not to exceed five percent of the total amount appropriated or allocated for that fiscal year.

Proposed law retains present law but authorizes additional authority for the governor to reduce non-constitutionally protected appropriations or allocations from the state general fund or dedicated by another five percent.

Effective July 1, 2011.
