

Existing law authorizes the La. Tax Commission to issue rules and regulations containing minimum standards of assessment and appraisal performance. The commission may, from time to time, amend or revise those rules and regulations. The commission is required to conduct public hearings as part of the rulemaking process.

New law requires hearings of the La. Tax Commission regarding changes to rules and regulations be held at the state capitol and that they be recorded and broadcast via the Internet.

Effective August 15, 2011.

(Amends R.S. 47:1837(G))
