Present law provides relative to the preparation and distribution of absentee by mail ballots and voting paraphernalia. Requires each ballot to have printed on its face instructions informing the voter of the types of marks which may be used on the ballot to indicate his vote. Proposed law retains present law.

Present law provides that depending on the type of ballot used in an election, that a cross mark, a check mark, or a mark that is made by filling in the appropriate space or box may be used by the voter to indicate his vote. Proposed law repeals present law.

Present law requires the secretary of state at least 20 days before each primary election and at least 13 days before each general election to deliver to the registrar in each parish early voting paper ballots, envelopes, certificates, and instructions and early voting applications to be used during early voting. Provides for the number of paper early voting ballots that must be delivered. Proposed law repeals present law.

Present law provides for the content of the absentee by mail ballot envelope. Requires the envelope to include a perforated extension or flap that bears a certificate. Requires the registrar during the early voting period to maintain regular office hours, remaining open from 8:30 a.m. to 6:00 p.m. Monday through Saturday. Provides that early voting on the last day of voting terminates when all persons who were in line to vote at the close of the regular office hours of the registrar's office have been allowed to vote. Proposed law provides instead that early voting each day of the early voting period shall terminate when all persons who were in line to vote at the close of the registrar's office have been allowed to vote. Otherwise retains present law.

Present law requires the registrar or deputy registrar to establish each voter's identity prior to allowing the voter to vote. Requires a voter to submit a La. driver's license, La. special identification card, or other generally recognized picture identification card containing the name and signature of the voter or to complete and sign an affidavit. Proposed law retains present law and refers to the affidavit as a voter identification affidavit.

Present law requires the registrar or deputy registrar to use the precinct register or list kept by the registrar to establish the identity of the voter. Proposed law repeals the list kept by

the registrar as a means to identify a voter and provides instead that the registrar may use the state voter registration computer system or the precinct register. Provides that the registrar may initial the precinct register or the list kept by the registrar after establishing the identity of the voter.

Present law provides for application to vote during early voting. Provides for the content of an early voting application. Proposed law repeals present law. Provides that the registrar or deputy registrar shall generate an early voting confirmation sheet for each voter using the state voter registration computer system or a form prepared by the secretary of state, which sheet shall be used to verify each early voter at the end of the early voting period.

Present law provides for using paper ballots during early voting under certain circumstances. Proposed law retains present law and provides that if the paper ballot envelope contains a certificate on the envelope flap, the voter shall not be required to sign the certificate. Provides that the registrar of voters or deputy registrar shall write "early voting ballot" across the envelope flap and include the voter's name, ward, precinct, and registration number and attach it to the early voting confirmation sheet so that the ballot may be identified for purposes of a challenge filed pursuant to present law (R.S. 18:1315).

Proposed law provides that at the end of each day during early voting, the registrar shall document on the early voting verification form provided by the secretary of state for each early voting location each of the following:

- (1) The total number for the public counters of all early voting machines for the day.
- (2) The total number of early voting confirmation sheets for the day.
- (3) The total number of early voters from the state voter registration computer system.
- (4) Any discrepancies or irregularities observed that prevent the total public counter number from matching the total early voting confirmation sheet number for the day and the total number of early voters from the state voter registration computer system for the day.

Proposed law provides that each day the registrar shall compare the early voting confirmation sheets to the information contained in the state voter registration computer system. Provides that if the registrar finds any discrepancies, he shall make a note thereof on the early voting verification form or on a notice of irregularity form provided by the secretary of state that he shall attach to the early voting verification form.

Proposed law provides that at the end of the early voting period, the registrar shall complete the early voting verification form for each location and sign and certify to its correctness and print an early voter report from the state voter registration computer system listing all early voters from the parish. Provides that all early voting verification forms, early voting machine public counter logs, early voting confirmation sheets, early voter reports, and paper ballots voted during early voting shall be placed in the special absentee by mail and early voting envelope or container for delivery to the parish board of election supervisors on election day for the tabulation and counting of early voting ballots.

Present law requires that the registrar receive election paraphernalia from branch offices no later than five days before the election. Proposed law changes the deadline to the day before the election. Specifies the election paraphernalia that must be received.

Present law requires the registrar to compare information contained on the early voting application with the information on ballot envelopes and contained in the precinct register. Requires him to make note of discrepancies. Proposed law repeals present law.

Present law provides that prior to delivery of the precinct register to the parish custodian, the registrar shall enter the word "absentee" and the date of the election in the proper space on the precinct register for each voter who voted during early voting and for each voter who voted absentee by mail whose ballot the registrar had received on or before the last day for early voting. Proposed law provides instead that the registrar shall ensure that the precinct register reflects for each voter whether the voter voted during early voting or voted timely absentee by mail using the words "voted by mail" and, if the register was not used during early voting, "voted early" in the signature line for the voter in the precinct register.

Present law (R.S. 18:1309.1) provides procedures for the preparation, testing, and sealing of machines for early voting. Provides for observation by a candidate or his representative. Requires the parish board of election supervisors to generate a zero tally to ensure that the voting machine's public counter is set at zero and that no votes have been cast for any candidate or for or against any proposition. Proposed law retains present law and additionally requires the registrar to record the public and protective counter numbers for each early voting machine on a form prepared by the secretary of state for use in verifying the early voting results on election day.

Present law (R.S. 18:1309.3) provides for assistance during early voting. Provides procedures and requirements. Proposed law retains present law and expressly provides that the procedures in present law shall be followed when paper ballots are used during early voting.

Present law (R.S. 18:1311) provides relative to absentee by mail ballots received from military and overseas voters on election day. Requires the registrar and commissioner-in-charge to mark the precinct register "Absentee" in the place where the voter would ordinarily sign the register. Proposed law requires the precinct register to be marked "voted by mail" instead of "Absentee". Otherwise retains present law.

Proposed law requires the registrar to print an absentee by mail voter report from the state voter registration computer system listing all voters from whom he has received absentee by mail ballots before election day. Requires the registrar to certify to the correctness of the report and deliver the report to the parish board of election supervisors on election day for use in the tabulation and counting of absentee by mail ballots.

Present law (R.S. 18:1312) requires the parish board of election supervisors to return to the registrar and for the registrar to retain in his office all absentee by mail and early voting ballots. Provides requirements for retaining the materials. Proposed law repeals present law requirements relative to early voting ballots. Additionally, requires the board to return and the registrar to keep early voting machine results reports, early voting verification forms, early voting machine public counter logs, and early voting confirmation sheets.

Present law (R.S. 18:1313) provides for the tabulation and counting of absentee by mail and early voting ballots. Provides that the parish board of election supervisors shall be responsible for the counting and tabulation of all absentee by mail and early voting ballots in the parish and provides procedures therefor.

Present law provides that absentee by mail and early voting ballots shall be counted at the office of the registrar of voters or at a public facility within the parish designated by the parish board of election supervisors. Proposed law provides instead that absentee by mail and early voting ballots shall be counted at a public facility within the parish designated by the registrar of voters.

Proposed law additionally provides that prior to the counting of absentee by mail and early voting ballots on election day, any person authorized by the secretary of state may assist the registrar of voters in the challenge removal process on the early voting machines, in the reading of the early voting machine results cartridges on the secretary of state's equipment, and in producing the early voting machine results report. Provides that all early voting

machine results reports shall be placed in the special absentee by mail and early voting envelope or container.

Present law provides procedures that apply to the counting of absentee by mail and early voting ballots. Proposed law amends present law so that present law applies to the counting of absentee by mail ballots. Provides separate procedures for counting early voting ballots as follows:

- (1) A member of the board shall remove the early voting verification forms, early voting machine public counter logs, early voting confirmation sheets, paper ballots voted during early voting, early voter report, and all early voting machine results reports from the special absentee by mail and early voting ballot envelope or container.
- (2) The board shall review the early voting verification forms and early voting machine public counter logs and, if found to be acceptable to the board, sign each early voting verification form. Two of the members shall execute the certificate on the envelope or container.
- (9) The members shall open the envelopes containing the valid paper ballots voted during early voting and remove the ballots.
