

Regular Session, 2013

HOUSE BILL NO. 2

BY REPRESENTATIVE ROBIDEAUX

CAPITAL OUTLAY: Provides for the comprehensive Capital Outlay budget

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state
3 government, state institutions, and other public entities; to provide for the
4 designation of projects and improvements; to provide for the financing thereof
5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby
8 appropriated out of any monies in the state treasury from the sources specified, from federal
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July
12 1, 2013, and ending June 30, 2014, subject to the conditions thereafter provided:

13 All appropriations within this Act payable from the Overcollections Fund shall be
14 paid exclusively from one-time monies that are available for appropriation from that fund.
15 For purposes of this Act, one-time money means money that has been identified as such in
16 the report provided by the Legislative Fiscal Officer to the Louisiana House of
17 Representatives pursuant to and as required by House Rule 7.19(B)(2) of the Rules of Order
18 of the House of Representatives. If the total amount of one-time monies available for
19 appropriation from the Overcollections Fund for purposes of this Act is insufficient to fully
20 fund all appropriations payable from the fund in this Act, then all such appropriations shall
21 be reduced on a pro rata basis.

1 A project with funding payable from General Obligation Bonds Priority 1 indicates
2 that the funding for the project includes the reauthorization of funding which was previously
3 on a line of credit granted by the State Bond Commission in Fiscal Year 2012-2013. As
4 used in this Section, the term "general obligation bonds" means state general obligation
5 bonds or other evidences of indebtedness payable from the Bond Security and Redemption
6 Fund. The amount set forth in this Section opposite each project, or so much thereof as may
7 be necessary, is hereby appropriated and payable from the proceeds available from the sale
8 of general obligation bonds, unless a different source of funding is indicated. Where such
9 a different source of funding is indicated, the corresponding amount set forth, or so much
10 thereof as may be necessary, is hereby appropriated and payable from the source of funding
11 indicated; provided, however, amounts appropriated and payable from federal funds may be
12 encumbered or expended only to the extent such amounts shall have been committed or
13 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,
14 construction, and major repair projects appropriated by this act may be retained until
15 completion of the project, even if no bona fide liability exists on the last day of the fiscal
16 year.

17 This Act shall constitute the comprehensive state capital outlay budget for the 2013-
18 2014 Fiscal Year. Projects set forth which are payable from the proceeds available from the
19 sale of general obligation bonds shall have the priorities as indicated. The Request for Line
20 of Credit form used by the Attorney General and Bond Counsel in evaluating Louisiana
21 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed
22 with the Commissioner of Administration, State Bond Commission, and State Attorney
23 General. No general obligation bonds shall be sold, nor cash lines of credit granted to fund
24 any lower priority project prior to the sale of general obligation bonds or the granting of cash
25 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter
26 provided. This prohibition against funding a lower priority project shall not apply upon a
27 showing of an impossibility or impracticality either to proceed with all unfunded higher
28 priority projects or to proceed with the funding of such projects or any part thereof through
29 the issuance of general obligation bonds for any reason. Such showing shall be stated in

1 reasonable detail in a certificate or certificates signed by the state agency responsible for
2 administering the funding, and filed with the Commissioner of Administration and the State
3 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by
4 the Commission that proceeding with such a project or the funding thereof through the
5 issuance of general obligation bonds is impractical or impossible, the Commission may then
6 proceed with the sale of general obligation bonds or the granting of cash lines of credit
7 without regard to the priority of the unfunded projects determined to be impossible or
8 impractical.

9 Upon recommendation by the state agency responsible for administering the funding,
10 if it is determined at any time that proceeding with the project or with the funding thereof
11 is no longer impossible or impractical, the State Bond Commission may rescind the
12 certificate of impossibility or impracticality and may proceed with the project or with the
13 issuance of general obligation bonds or the granting of cash lines of credit to fund the
14 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),
15 upon reviewing certificates as described above and determining that proceeding with such
16 project or the funding thereof through the issuance of general obligation bonds is impossible
17 or impractical, may designate a lower priority for such project. The Board's determination
18 and lower priority designation shall be submitted to the members of the Legislature for their
19 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the
20 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of
21 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written
22 request of the appropriate legislators and agency, the Board determines that an adjustment
23 to a project description originally set forth in such capital budget adopted by the Legislature
24 for a current fiscal year is necessary to correct a mistake in a project description, clarify a
25 description, change the scope of a description, or make any other adjustment the Board
26 deems necessary to implement the purpose of the project, such adjustment shall only become
27 effective upon the approval by majority vote of the elected members of each house of the
28 Legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the
29 Louisiana Revised Statutes of 1950.

1 If such approval is granted, notification by the chair or secretary of the Board of the
2 results of the balloting shall be transmitted to the State Bond Commission, which may then
3 proceed with the sale of general obligation bonds or the granting of cash lines of credit for
4 each change approved upon request of the Commissioner of Administration in accordance
5 with the general rule.

6 With respect to Priorities 1 through 5, a lower priority project may be moved to a
7 higher priority only upon a showing of an emergency or other cause not reasonably
8 anticipated by the Legislature, which shall be stated in reasonable detail in a certificate
9 signed by the head of the appropriate department, political subdivision, or agency and filed
10 with the Commissioner of Administration and the Board. Upon a determination by the
11 Board that such project should be moved to a higher priority because of an emergency or
12 other cause not reasonably anticipated by the Legislature, the Board shall designate a higher
13 priority to the project. The matter then shall be submitted to and be subject to the same
14 approval by the members of the Legislature in the manner previously indicated in this
15 Section. If such approval is granted, notification by the chair or secretary of the board of the
16 change of priority shall be transmitted to the State Bond Commission, which then upon
17 request of the Commissioner of Administration, may proceed with the sale of general
18 obligation bonds or the granting of cash lines of credit in accordance with the general rule.

19 As to projects within a priority, the State Bond Commission acting on requests submitted by
20 the Commissioner of Administration shall determine when such project, or phases thereof,
21 shall be funded. In making such determination, the State Bond Commission shall consider
22 the amount of proceeds of general obligation bonds to be made available in light of money
23 and capital market conditions; the expenditure requirements of the project; the time required
24 for architectural plans and drawings, public bidding, and site acquisition and preparation;
25 availability of receipt of federal monies; litigation affecting the undertaking or completion
26 of a project, federal tax laws and regulations regarding the sale of municipal bonds; and
27 other items of a similar nature bearing upon the possibility or the necessity to commence a
28 project or any particular phase thereof.

1 Any other provision of this Act to the contrary notwithstanding, projects described
2 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the
3 following conditions: (1) Funding is necessary to complete or additionally fund a project
4 located elsewhere in the capital outlay act. Determination of such condition shall be made
5 by the head of the appropriate department or agency by means of a certificate to that effect
6 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such
7 change and if approved by a majority of each house of the Legislature it shall be funded, or
8 (2) unless required by an emergency or other cause not reasonably anticipated by the
9 Legislature, to be in accordance with procedures set forth in this Section. However, the State
10 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which
11 represents that portion of construction contracts which were let during a previous fiscal year,
12 or construction contracts which will be let during the current fiscal year, but which will not
13 require cash expenditures during the year. Such non-cash lines of credit, when combined
14 with previously sold bonds or with higher priority bonds or lines of credit, or with funds
15 appropriated from other sources, will provide sufficient appropriated funds to award
16 equipment or construction contracts. Contracts shall not be awarded without approval of the
17 Division of Administration.

18 Upon approval by the State Bond Commission, and subject to compliance with its
19 policies and procedures and the procedures set forth herein, a line of credit providing for the
20 use of funds in anticipation of the sale of general obligation bonds may be granted to the
21 appropriate administering agency or department from the Comprehensive Capital Outlay
22 Escrow Account, or if there is not a sufficient amount available in such account, from other
23 available state cash in the state treasury, for capital improvement projects for which bond
24 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds
25 for such projects, unless the attorney general advises that an impediment exists to the valid
26 issuance of the bonds on the date such line of credit is granted.

27 All bonds that are to be repaid, in whole or in part, by revenues generated by the
28 project shall be designated as "Reimbursement Bonds". The State Bond Commission shall
29 enter into such agreements as are necessary to provide that the agency or subdivision, whose

1 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption
2 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as
3 determined by the State Bond Commission.

4 Priority 1 general obligation bond funding shall be limited to:

5 (1) Projects and amounts which were previously authorized by Act 23 of the 2012
6 Regular Session of the Legislature; and which were granted cash lines of credit by the State
7 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2012-2013

8 (2) The reauthorization of the portion of the outstanding Fiscal Year 2012-2013
9 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in
10 Fiscal Year 2013-2014 and therefore must be converted to Cash Lines of Credit in Fiscal
11 Year 2013-2014.

12 (3) Commitments made in the Higher Education Desegregation Settlement
13 Agreement.

14 Priority 2 general obligation bond projects are for the completion of plans and
15 specifications, land acquisition, site preparation, or for construction which will begin during
16 the fiscal year. It is presently anticipated that the listed projects will require the sale of
17 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

18 Priority 3 general obligation bond projects are for the preparation of plans and
19 specifications, land acquisition, site preparation, or for construction and shall be limited to
20 funding for the portion of construction contracts which will not require cash expenditures
21 during the fiscal year. The projects in this category shall be considered future year projects
22 in the State's five year capital outlay plan. It is presently anticipated that the listed projects
23 will not require the sale of bonds or extension of lines of credit during the fiscal year.

24 Priority 4 general obligation bond projects are for the preparation of plans and
25 specifications, land acquisition, site preparation, or for construction and shall be limited to
26 funding for the portion of construction contracts which will not require cash expenditures
27 during the fiscal year. The projects in this category shall be considered future year projects
28 in the State's five year capital outlay plan. It is presently anticipated that the listed projects
29 will not require the sale of bonds or extension of lines of credit during the fiscal year.

1 Priority 5 general obligation bond funding shall be limited to funding for the portion
 2 of construction contracts which will not require cash expenditures during the fiscal year.
 3 These funds, when combined with previously sold bonds or with higher priority bonds on
 4 lines of credit, or with funds appropriated from other sources, will provide sufficient
 5 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the
 6 award of these contracts.

7 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)
 8 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of
 9 Transportation and Development is authorized to enter into contracts or agreements for
 10 projects approved pursuant to the Highway Priority Program, Airport Construction and
 11 Development Priority Program, Port Construction and Development Priority Program, and
 12 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced
 13 during the fiscal year which do not require cash expenditures for the full contract or
 14 agreement amount.
