Dept./Agy.: DHH	Analyst: Jennifer Katzman
Subject: Medicaid waiver	

MEDICAID EN INCREASE GF EX See Note Page 1 of 1

Directs DHH to submit a Section 1115 demonstration waiver application in order to utilize certain funding for the Medicaid program

Proposed legislation directs the Department of Health & Hospitals (DHH) to submit an application for a Section 1115 Medicaid demonstration waiver to the Centers for Medicare & Medicaid Services (CMS), which allows the state to use both non-state public funds and state general fund (SGF) as state match sources in order to draw down Federal match for previously unallowable costs for state and local health programs.

Proposed legislation further directs DHH to reinvest any unencumbered state funds as a result of new Federal match in the Medicaid program and that the waiver request shall preserve current Supplement Medicaid Upper Payment Limit (UPL) funding.

Proposed legislation mandates that the waiver application be made by 2/1/2014. However, if DHH does not meet the submission deadline, it shall submit a report on the waiver application and the reasons for delay to the Joint Legislative Committee on the Budget.

EXPENDITURE EXPLANATION

The proposed legislation is anticipated to increase SGF and Federal expenditures by approximately \$1.8 M in FY 14 and \$1.3 M in subsequent years as a result of the administrative costs associated with determining the scope and application of the waiver request. These expenditures are funded with 50% state match and 50% federal match through the Medical Vendor Administration (MVA) program. Specifically, based on past Section 1115 Medicaid demonstration waiver applications, DHH anticipates having to hire staff and engage external consultants to solicit stakeholder input/feedback and negotiate with the Centers for Medicare & Medicaid Services (CMS) to secure approval. If the waiver is approved by CMS, DHH will also need to continue contract support to implement and monitor the waiver, to ensure compliance with the special terms and conditions required by CMS, and fulfill reporting requirements.

Specific administrative costs include salaries and related benefits for 3 new personnel, operating expenses, travel, and professional services expenditures. Expenditures are detailed below.

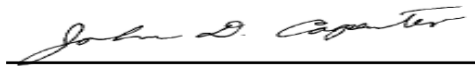

- \$279,197 - Salaries & related benefits: for 2 Medicaid Program Managers and a Medicaid Program Monitor
- \$16,858 - Operating Expenses: includes travel for 2 staff members to negotiate with CMS in Baltimore and supplies
- \$1,500,000 - Professional services: consulting contract
- \$1,796,055 - Total expenditures in FY 14**

These expenditures are anticipated to decrease to approximately \$1.3 M beginning in FY 15. This is primarily the result of reducing costs as the consulting contract's purpose switches from policy-making, preparation, and waiver application to sustained monitoring and reporting. Each subsequent year's personnel and operational costs are adjusted for inflation.

REVENUE EXPLANATION

The proposed resolution allows the state to use both non-state public funds and state general fund (SGF) as state match sources in order to draw down Federal match for costs not otherwise matchable (CNOM) for any and all state and local health programs, hospitals, and other providers, but it does not specify which particular programs or groups the waiver shall be requested for. As such, the impact on potential Federal revenues anticipated by the proposed resolution is unknown. Until the content of the waiver application is finalized, the amount of Federal match that may be generated cannot be determined.
