 3 to them below:

4 (1) "Biosciences" means any of the branches of natural science dealing with
 5 the structure and behavior of living organisms, including but not limited to
 6 translational and regenerative research, development, manufacture, testing,
 7 marketing or distribution of pharmaceuticals, biotechnology products, biotechnology
 8 and health-related software, and medical devices that will eventually be used by
 9 health care providers to treat, cure, prevent, or mitigate disease or health conditions.

10 (2) "Board" means the MediFund governing board.

11 (3) "Fund" means the MediFund created by the provisions of this Chapter.

12 §2213. MediFund; creation

13 A. The MediFund, hereafter referred to as the "fund", is hereby created as
 14 a special fund in the state treasury. The source of monies for the fund may include
 15 but shall not be limited to any appropriation by the legislature, including federal
 16 funds; any public or private donations, gifts, or grants from individuals, corporations,
 17 nonprofit organizations, or other business entities; venture capital; and any other
 18 monies which may be provided by law.

19 B. All money received by the fund, except as otherwise provided by Article
 20 VII, Section 9(B) of the Constitution of Louisiana relative to the Bond Security and
 21 Redemption Fund, shall be deposited immediately upon receipt into the state
 22 treasury.

23 C. The monies in the fund shall be invested by the state treasurer in the same
 24 manner as monies in the state general fund. Interest earned on the investment of
 25 monies in the fund shall be credited to the fund following compliance with the
 26 requirements of Article VII, Section 9(B) of the Constitution of Louisiana. All
 27 unexpended and unencumbered monies in the fund at the end of each fiscal year shall

29 D. Subject to appropriation by the legislature to the MediFund Board
 30 through the Board of Regents, the monies in the fund shall be used solely for the

2 disbursed from the MediFund shall not displace, replace, or supplant funding for
3 higher education for a purpose for which a general fund appropriation was made in
4 the previous year unless the total appropriation for that fiscal year from the state
5 general fund for such purpose exceeds general fund appropriations for the previous
6 year.

7 E.(1)(a) Except as provided for in Paragraph (3) of this Subsection, in no
8 fiscal year shall the amount transferred or appropriated to the MediFund exceed
9 twenty percent of any increase in state general fund and dedicated funds in the

13 Program for Students, the administrative costs of the management boards of higher
14 education, the Louisiana Education Quality Support Fund, and the Louisiana Marine

16 Section.

17 (2) Except as provided for in Paragraph (3) of this Subsection, state
18 appropriations and transfers into the fund shall not exceed twenty-five million dollars
19 in any fiscal year.

20 (3) The restrictions on transfers and appropriations to the fund provided for

28 (c) Non-state funds.

29 (4) State monies received by the fund may be allocated to public and not-for-
30 profit institutions, provided that no grant shall be made to a not-for-profit institution

1 if the grant does not include a public institution with a substantial role unless no
 2 public institution possesses the expertise or interest necessary to participate.
 3 Likewise, any such grants awarded by the fund to a public institution, as the primary
 4 applicant, shall include a not-for-profit institution as a collaborative grant partner,
 5 with a substantial role, unless no not-for-profit institution in this state possesses the
 6 expertise necessary or the interest to participate in such collaboration. This
 7 limitation shall not include non-state funds.

8 F. Three percent of the balance of the fund or an amount not to exceed six
 9 hundred thousand dollars, whichever is lesser, shall be used for administrative fees
 10 to accomplish the purpose of this Chapter, as approved by the MediFund board.
