

Existing law provides for the classification of controlled dangerous substances in Schedules I through V.

New law adds certain chemical groups to the Schedule I listing of stimulants known as cathinones and adds additional substances to the Schedule I listing of synthetic cannabinoids.

New law provides a definition of "nitrogen-heterocyclic analog".

Effective August 1, 2013.

(Amends R.S. 40:964(Schedule I)(E)(9)(i) and (iii) and (F); Adds R.S. 40:961(26.1))
