HB No. 381

Abstract: Creates the Student Standards Commission to develop state standards for required subjects for public school students. Provides for implementation of the standards by the State Board of Elementary and Secondary Education (BESE) subject to legislative approval of the standards. Repeals provisions relative to implementation of certain standards-based assessments by BESE.

Present law provides for the La. Competency-Based Education Program, including the development and implementation of statewide standards for required subjects and the La. Educational Assessment Program (LEAP). Requires standards-based assessments for required subjects (English language arts, math, science, and social studies) to be implemented by BESE and administered in at least grades 3 through 11. Provides that such assessments be based on state content standards and rigorous student achievement standards comparable to national student achievement levels. Further requires that the rigor of such assessments shall at least compare to that of national achievement tests. Specifies that beginning with the 2014-2015 school year, the standards-based assessments in English language arts and math shall be based on nationally recognized content standards. Requires BESE to establish the adequate test scores for determining successful student performance on the tests. Provides for an alternate assessment to be administered to students with disabilities who meet criteria developed by the state Dept. of Education. Further requires the department to develop modified achievement standards and use alternative assessments for certain students with persistent academic disabilities. Proposed law retains present law except repeals present law requirement that the standards-based assessments in English language arts and math be based on nationally recognized content standards.

Proposed law creates the Students Standards Commission in the Dept. of Education to develop state standards for required subjects. Provides for commission membership, vacancies, meetings, voting, and compensation. Provides that the commission shall be subject to the Public Records Law and the Open Meetings Law. Provides that in developing the standards, the commission shall also consider and may recommend the appropriate assessments to be used to effectively measure student achievement.

Proposed law provides for implementation of the standards by BESE subject to legislative approval of the standards. Requires the state board to submit the standards to the legislature and provides that the legislature may return the standards and include any recommendations for changes. Provides that if the legislature fails to finally approve the initial standards developed and adopted by the commission, BESE shall implement the state standards used immediately prior to BESE's adoption of the Common Core State Standards (CCSS). Further provides that

the legislature shall approve any subsequent changes to the standards before they can be implemented.

Proposed law deletes requirement that the state Dept. of Education develop and implement the statewide content standards for required subjects.

(Amends R.S. 17:24.4(A)(3) and (4), (E), (F)(3)(a) and (b)(ii), and (G)(2); Adds R.S. 36:651(G)(4); Repeals R.S. 17:24.4(F)(1)(d))
