- 4 On page 1, delete lines 17 through 19 in their entirety and on page 2, delete lines 1 through
- 5 3 in their entirety, and insert the following:

"(cc) Severance tax shall not be required to be paid from the date production begins from horizontal wells if the well operator files, prior to first production, a preliminary application for well status determination along with a directional survey demonstrating that the well meets the requirements of a horizontal well with the Louisiana Department of Natural Resources, office of conservation, and the office of conservation certifies that the well meets the horizontal well requirements. Additionally, within two hundred seventy days of first production, the well operator shall complete and file an amended application for well status determination with the office of conservation which shall include the date the well commenced production and the detailed itemized well cost statement in order for severance tax obligations to be suspended from the date production begins from qualified horizontal wells. Well operators shall continue to file severance tax returns with the corresponding lease detail reports for these wells during the severance tax suspension period. When filing the lease detail reports, the operator shall insert the well serial code in place of the lease code. If production from the well is attributable to a state lease, the operator shall be required to pay royalty to the state throughout the severance tax suspension period. Failure to file an amended application for well status determination with the office of conservation within two hundred seventy days of first production shall not affect the qualified well's suspension status provided that the amended application is received within twenty-four months or until payout of the well is achieved, whichever comes first."

27 <u>AMENDMENT NO. 3</u>

On page 2, line 13, after "first." delete the remainder of the line in its entirety and delete lines 14 through 24 in their entirety and insert the following:

"Severance tax shall not be required to be paid from the date production begins from deep wells if the well operator files, prior to first production, a preliminary application for well status determination, along with a directional survey demonstrating that the well meets the requirements of a deep well with the Louisiana Department of Natural Resources, office of conservation, and the office of conservation certifies that the well meets the deep well requirements. Additionally, within two hundred seventy days of first production, the well operator shall complete and file an amended application for well status determination with the office of conservation which shall include the date the well commenced production and the detailed itemized well cost statement in order for severance tax obligations to be suspended from the date production begins from qualified deep wells. Well operators shall continue to file severance tax returns with the corresponding lease detail reports for these wells during the severance tax suspension period. When filing the lease detail reports, the operator shall insert the well serial code in place of the lease code. If production from the well is attributable to a state lease, the operator shall be required to pay royalty to the state throughout the severance tax

1	suspension period. Failure to file an amended application for well status
2	determination with the office of conservation within two hundred seventy days of
3	first production shall not affect the qualified well's suspension status provided that
4	the amended application is received within twenty-four months or until payout of the
5	well is achieved, whichever comes first.
