**EXPENDITURE EXPLANATION**

The proposed legislation abolishes the Governor's Office of Indian Affairs and creates the Commission on Indian Affairs as a state agency in the office of the governor. The office currently has 1 vacant TO position, the Executive Director. FY 11 was the last fiscal year the Executive Director position of Indian Affairs was actually filled and funded. This position was funded with \$76,473 of SGF for salary and related benefit costs. To the extent this legislation results in this position being filled, this legislation will result in a SGF increase of at least this amount.

The FY 15 recommended budget for the Governor's Office of Indian Affairs is \$1,288,529 and one unfunded TO position with the following means of finance:

- Fees and Self-Generated - \$7,200 (derived from the sale of LA Native American prestige license plates)
- Statutory Dedications - \$1,281,329 (derived from Avoyelles Parish Local Government Gaming Mitigation Fund)

The provisions of legislation provide for the establishment of the commission membership to include 14 Indian members will increase expenditures by an indeterminable amount. The members will serve without salary and the commission will meet at least quarterly. The members will receive \$100 per day for attendance at meetings of the commission and will be reimbursed for travel and other expenses incurred while in the performance of their duties in accordance with travel regulations of the division of administration. The cost for quarterly meetings with all members attending would be \$5,600 annually, plus travel reimbursements of \$0.56 per mile. This legislation is silent on the funding source for these additional expenditures. It is assumed that state general funds will be utilized for these increased costs. To the extent commission expenditures are in excess of current resources, SGF will likely be utilized to fund these indeterminable costs.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
