**EXPENDITURE EXPLANATION**

The proposed legislation may result in an indeterminable increase in state general fund expenditures as a result of certain state law enforcement officers receiving credit for prior service if they transfer to any local law enforcement agency (municipal police or deputy sheriff). It is unknown how many state law enforcement officers will transfer to any local law enforcement agency. However, for each officer that does transfer and receives credit for prior service (at least 1 year), the officer working for a local law enforcement agency would receive \$500 per month in supplemental pay. The annual cost would be \$6,000 (12 months x \$500 supplemental pay per month) for each officer that transfers from a state law enforcement agency to any local law enforcement agency.

Local governments will be responsible for providing the additional retirement and Medicare payments for municipal police and deputy sheriffs receiving supplemental pay. This percentage ranges from 30%-35% depending upon the retirement system to which the individual is contributing.

NOTE: To the extent a state law enforcement officer does transfer to a local law enforcement agency, a savings may occur for the department that employed the officer if the position is not filled, which could offset any increase in state supplemental pay.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
