

Prior law provided that the administrator for the unemployment insurance fund (executive director of the La. Workforce Commission) may enter into reciprocal arrangements with unemployment agencies of other states or the United States, or both, regarding the payment of unemployment contributions that are made by employers to other states or to the federal government.

New law requires that the La. Workforce Commission will work with multi-state employers to propose interstate reciprocal agreements that will safeguard multi-state employers from paying duplicative unemployment insurance on the same worker and protect the solvency of a state's trust fund by ensuring sufficient tax streams to cover benefit liabilities.

Effective August 1, 2014.

(Adds R.S. 23:1665(C))
