

Prior law required the Department of Health and Hospitals (DHH) to submit a diabetes annual action plan, after consulting with and receiving comments from the medical director of each of its contracted Medicaid partners, to the Senate Committee on Health and Welfare and the House Committee on Health and Welfare no later than February first of each year.

New law amends prior law to provide DHH shall include within the annual diabetes action plan the most current editions of the standards of medical care in diabetes by the American Diabetes Association and the American Association of Clinical Endocrinologists.

Effective August 1, 2014.

(Amends R.S. 46:2616)
