HB 370 Original

2015 Regular Session

Broadwater

Abstract: Establishes the Group Benefits Actuarial Committee and requires an annual actuary study on the premium rate structure and approval by the committee of the premium rates charged for members of the Office of Group Benefits.

Present law provides with respect to the powers and duties of the Office of Group Benefits ("OGB"). Authorizes OGB to administer all aspects of program benefits for group insurance, including authorization to appoint an individual actuary, adopt and promulgate rules, prepare and submit a budget, designate a depository for money under its control, establish benefit plans and premium rates under the direction of the commissioner of administration, negotiate contracts, administer and provide for the administration of a qualified cafeteria plan, authorize small debts, and procure internal auditing service contracts.

Proposed law retains present law with respect to the authority of OGB to establish benefit plans under the direction of the commissioner of administration, but clarifies that the authority to establish benefit plans is subject to review and final approve in accordance with the provisions of the Administrative Procedure Act.

Proposed law retains present law with respect to the authority of OGB to establish premium rates under the direction of the commissioner of administration, but requires review and final approval of premium rates by the Group Benefits Actuarial Committee (committee) established by proposed law.

Proposed law defines "benefit plan" for purposes of this Chapter as coverages offered by the plan to eligible persons, including copayments, deductibles, costs of prescription drugs, or any other medical costs associated with health care that are required to be paid directly by the covered person.

Proposed law requires that an actuarial study of the program and the premium rate structure be performed annually by the actuary appointed by OGB and that the study be submitted to both OGB and the committee no less than 30 days prior to a new plan year.

Proposed law establishes the Group Benefits Actuarial Committee, to be comprised of the commissioner of insurance, or his designee, the state treasurer, or his designee, and the legislative auditor, or his designee. Further requires the commissioner of insurance to serve as chairman of the committee.

Proposed law requires OGB to annually submit its premium rate recommendation to the committee

for review and approval, regardless of whether any changes to the premium rate are recommended. Requires the premium rate recommendation to be submitted no less than 30 days prior to the new plan effective dates. Requires premium rates and changes to be approved by the committee before implementation.

Proposed law requires the committee to hold a public hearing for review of the annual actuarial study and premium rate recommendation and that notice be sent to all plan members, whether active or retired. Requires the committee to approve or reject the recommended premium rate, and if rejected, requires the committee to approve an alternate premium rate to that premium rate recommendation that was rejected.

Proposed law requires the commissioner of insurance to promulgate rules and regulations for implementation of proposed law.

Effective upon signature of governor or lapse of time for gubernatorial action.
