DIGEST

SB 227 Original

2015 Regular Session

Donahue

Present law provides for the La. New Markets Job Act, allowing credits against insurance premium taxes to be earned for certain qualified equity investments. Provides for definitions, eligibility, application procedures, and recapture of credits claimed under certain circumstances.

Proposed law retains present law.

Present law caps the total of credits that may be certified at \$55 million.

Proposed law establishes a cap of \$26 million on the total amount of credits allowed in a fiscal year beginning with FY 2015-16. The cap is the baseline average of the aggregate amount of claims filed for the new market credits provided for in present law during the five fiscal years from FY 2008-09 to FY 2013-14.

Proposed law provides that claims for the credit shall be allowed on a first-come, first-served basis. Provides that any taxpayer whose claim for the credit is disallowed may use the credit against tax liability due in the next fiscal year and his claim shall have priority over other claims filed after the date and time of his original claim.

Proposed law terminates the credit June 30, 2021.

Effective upon signature of the governor or lapse of time for gubernatorial action.

(Amends R.S. 47:6016.1(C)(1)(intro para), (E)(2), (3), and (5), and (M))
