EXPENDITURE EXPLANATION

There is no anticipated significant direct material effect on governmental expenditures as a result of this measure. Preamble language provided within Act 15 of 2014 (HB 1, FY 15), Section 8(C) requires that "the budget request of any agency with an appropriation level of thirty million dollars or more shall include, within its existing table of organization, positions which perform the function of internal auditing." Thus, the executive branch agencies impacted by this legislation should have already implemented the requirements of this proposed bill.

Note: To the extent the current audit function within the impacted state agencies do not adhere to the specific audit standards listed within the proposed legislation, state agencies may require additional resources to meet the necessary quality control review standards (Institute of Internal Auditors, International Standards of the Professional Practice of Internal Auditing).

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
