<u>Present law</u> provides that the maximum retirement benefit is calculated as follows: accrual rate x years of service x average final compensation. <u>Proposed law</u> retains <u>present</u> law.

Present law provides a 31/3% accrual rate for members in FRS.

<u>Proposed law retains present law</u> for current employees and for employees hired on or before December 31, 2015.

<u>Proposed law</u> provides a 3% accrual rate for employees in FRS, hired on or after January 1, 2016; however, for any employee who earns 30 years of service credit, <u>proposed law</u> provides a 31/3% accrual rate for all years.

<u>Proposed law</u> requires that any additional benefit earned for continued employment after participation in a deferred retirement option plan (DROP) to be calculated using the same period as that member's original average final compensation period.
