Changes the definition of "qualified community development business" for purposes of the insurance premium tax credit available through the La. New Markets Jobs Act

The bill changes the definition of a qualified community development entity into which capital investments are made for participation in the New Markets Tax Credit Program. Such an entity would no longer have to an allocation agreement with the Comunity Development Financial Institutions Fund of the U.S. Department of the Treasury with respect to federal tax credits authorized by Section 45D of the Internal Revenue Code.

Effective upon governor's signature.

## **EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

## REVENUE EXPLANATION

Change {S&H}

There is no anticipated direct material effect on governmental revenues as a result of this measure.

The bill presumably allows additional entities to participate in the New Markets Tax Credit Program. This does not change the aggregate amount of state tax credits involved in the program, and does not have an effect on net state tax revenue.
