3 on family caregiving and long-term supports and services which shall report
4 recommendations for legislative and administrative actions regarding support for
5 family caregivers and other long-term care providers to the Senate Committee on
6 Health and Welfare.

7 WHEREAS, the number of people in Louisiana who are age eighty-five and older
8 and are most likely to require caregiving assistance as they age is projected to surpass one
9 hundred and twenty-six thousand by the year 2030; and

11 of daily living prefer to remain in their own homes and communities as they age; and

12 WHEREAS, providing services and supports to these older adults in their homes and
13 communities is generally less expensive than nursing home care; and

14 WHEREAS, of these older adults living in the community who receive personal
15 assistance, statistics indicate that nearly three-fourths of these citizens rely exclusively on
16 unpaid caregivers for this assistance; and

17 WHEREAS, to successfully accommodate the surging population of older adults who
18 have significant needs for long-term services and supports, this state must implement

15 BE IT FURTHER RESOLVED that the study committee shall examine the numbers
16 of providers of home and community based services who have left the industry over the last
