Present law provides for an income or corporation franchise tax credit for ad valorem taxes paid to political subdivisions on inventory held by manufacturers, distributors, and retailers and on natural gas held or consumed in providing natural gas storage services or operating natural gas storage facilities.

Proposed law changes the amount of the credit to 80% of the ad valorem taxes on inventory paid to political subdivisions.

Present law authorizes the refundability of credits in excess of the income and franchise tax liability for taxpayers whose tax liability for ad valorem taxes paid to political subdivisions is \$10,000 or less. For taxpayers that paid more than \$10,000 in inventory tax, 75% of the credit that exceeds the income and franchise tax liability is refundable and the remaining 25% of the excess credit may be carried forward against subsequent income or corporation franchise tax liability for up to five years.

Proposed law retains present law.

Present law requires the dedication of sales and use taxes imposed pursuant to R.S. 47:302, 321, and 331 attributable to the furnishing of interstate and international telecommunication services to the Telephone Company Property Assessment Relief Fund (the Fund).
