Subject: Reduces vendor discounts on alcohol and beer	Analyst: Deborah Vivien

TAX/ALCOHOLIC BEVERAGE OR +\$750,000 GF RV See Note Page 1 of 1
 Reduces the amount of the discount for accurately reporting and timely remitting state excise taxes on alcoholic beverages and beer (Item #23)

Current law allows a discount of 3 1/3% of timely filing and payment of the state excise tax on high alcohol beverages (wine and liquor) and 2% of timely remittances of the state excise tax on low alcohol beverages (beer and malt liquor). Local excise tax remittances on low alcohol beverages are also allowed a 2% discount for timely remittance. The first handler remits the tax and receives the discount.

Proposed law retains current law but reduces the discount rates by half to 1 2/3% for high alcohol content (wine and liquor) and 1% for low alcohol content (beer and malt liquor). Local discounts remain unchanged. The bill is effective upon signature.

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. The Department indicates that any implementation costs will be absorbed in the current budget. Though the cost of this bill is minimal, the aggregate impact of all session bills may require additional resources. Some implementation issues are expected if the bill is signed and rate changes are made effective in the middle of a month.

REVENUE EXPLANATION

According to the Department of Revenue, discounts for beer and alcohol totaled \$1.5M in FY15, with \$800,000 from alcohol sales and \$700,000 from beer sales. If the rates are cut in half and sales remain stable, the state would retain roughly \$750,000 annually due to the reduced discounts.

If the bill is signed by the governor such that it's changes are effective on April 1, 2016, the state would retain roughly one-fourth of the annual amount or \$190,000 during FY 16.
