
The original instrument and the following digest, which constitutes no part of the legislative instrument, were prepared by Alan Miller.

SB 165 Original	DIGEST 2016 Regular Session	Allain
-----------------	--------------------------------	--------

Proposed law requires that the commissioner of conservation to require the prospective oilfield site operator identify, on a form approved by the commissioner, the surface owner of lands on which the well is located, prior to issuance of an amended permit to transfer a well to another operator.

Present law requires the commissioner to seek to notify the last operator of record, at his last known address contained in the department records, of the site that is to be declared orphaned and shall publish a notice in the Louisiana Register that the oilfield site is to be declared orphaned, prior to declaring a site to be an orphaned oilfield site.

Proposed law retains present law and additionally requires the commissioner to seek to notify the surface owner of the site that is to be declared orphaned when the department has been provided such information pursuant to proposed law.

Effective August 1, 2016.

(Amends R.S. 30:91(B)(1); adds R.S. 30:28(J))
