HB 904 Original

2016 Regular Session

Billiot

Abstract: Provides an exception, applicable to certified water and sewerage system operators, to a required reduction in retirement benefits for reemployed retirees from the Municipal Employees' Retirement System (MERS).

Present law provides that during a period of reemployment of a retiree of MERS, his employment income plus his retirement benefit may not exceed his average final compensation; if it does, his retirement benefit is reduced by the excess amount.

Proposed law retains present law except to provide that the required reduction in benefits does not apply to a certified operator of a water supply or sewerage system who returns to work in such a position. Limits this exception to not more than a lifetime total of three years.

Effective July 1, 2016.

(Amends R.S. 11:1762(B))
