HB 763 Reengrossed

2016 Regular Session

Carpenter

Abstract: Authorizes establishment of intervention and stabilization units by human services districts and authorities.

Proposed law defines "intervention and stabilization unit" as a type of crisis receiving center in which a staff of mental health and behavioral health specialists provide a high level of screening and assessment to people experiencing mental health or behavioral health crises. Provides that the purposes of a intervention and stabilization unit include, without limitation, all of the following:

- (1) To properly connect patients experiencing mental health or behavioral health crises to either acute or ongoing community-based treatment.
- (2) To diminish the need in a community for recurrent crisis services for persons suffering from mental illness, substance abuse, or both conditions.
- (3) To serve as a crisis continuum component that assists law enforcement officers, hospital emergency departments, and jails by treating persons with mental health and behavioral health conditions in an appropriate setting.

Proposed law authorizes human services districts and authorities to establish intervention and stabilization units in accordance with the provisions of proposed law. Provides that subject to appropriation therefor, a human services district or authority may establish and operate an intervention and stabilization unit in any parish that meets all of the following criteria:

- (1) The parish has a population of more than 440,000 according to the latest federal decennial census.
- (2) The parish experienced the closure of a hospital that had been operated by the LSU Health Care Services Division.

Proposed law stipulates that human services districts and authorities are authorized, but not required, to establish any intervention and stabilization unit pursuant to proposed law as a Level III (freestanding) crisis receiving center.

(Adds R.S. 28:931 and 932)

Summary of Amendments Adopted by House

The Committee Amendments Proposed by House Committee on Health and Welfare to the original bill:

1. Stipulate that human services districts and authorities are authorized, but not required, to establish any mental health emergency room extension pursuant to proposed law as a Level III (freestanding) crisis receiving center in accordance with present administrative law.

The House Floor Amendments to the engrossed bill:

1. Change the designation of the type of facility provided for in proposed law from "mental health emergency room extension" to "intervention and stabilization unit".
2. Stipulate that human services districts and authorities are authorized to establish intervention and stabilization units as Level III (freestanding) crisis receiving centers in accordance with present law relative to crisis response systems (R.S. 28:22), as well as with present administrative law relative to crisis receiving centers.
