Provides with respect to credit for time served pending a technical parole violation

Present law provides for technical parole violations and provides a sentence of not more than 90 days without diminution of sentence or credit for time served prior to the revocation for a technical violation. Proposed law changes present law to provide that the defendant shall be given credit for time served prior to the revocation hearing for time served in actual custody while being held for a technical violation in a local detention facility, state institution, or out-of-state institution.

**EXPENDITURE EXPLANATION**

The proposed legislation may result in an indeterminable decrease in SGF expenditures if state offenders are given credit for time served prior to the revocation hearing for time served in actual custody while being held for a technical violation in a local detention facility, state facility or out-of-state facility.

SGF expenditures will decrease by \$51.68 per offender per day if offenders are housed in state facilities and by \$24.39 for state offenders housed in local facilities. Offenders sentenced to the custody of the Department of Public Safety and Corrections for one year would decrease SGF expenditures by \$18,863 (\$51.68 per day x 365 days) if housed in a state facility and \$8,902 (\$24.39 per day x 365 days) if housed in local facilities. Approximately 50% of state offenders are housed in state facilities and approximately 50% of state offenders are housed in local facilities.

Note: For informational purposes, the Department of Public Safety and Corrections - Corrections Services - typically houses certain probation/parole non-violent/non-sex offenders who violate the technical conditions of supervision (i.e. they are not arrested for a new felony) at the Don Francois Alternative Center (local facility) at a \$24.39 per day cost.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
