

2016 Regular Session

HOUSE BILL NO. 2

BY REPRESENTATIVE ABRAMSON

CAPITAL OUTLAY: Provides for the comprehensive Capital Outlay budget

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state
3 government, state institutions, and other public entities; to provide for the
4 designation of projects and improvements; to provide for the financing thereof
5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby
8 appropriated out of any monies in the state treasury from the sources specified, from federal
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July
12 1, 2016, and ending June 30, 2017, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates
14 that the funding for the project includes the reauthorization of funding which was previously
15 on a line of credit granted by the State Bond Commission in Fiscal Year 2015-2016. As
16 used in this Section, the term "general obligation bonds" means state general obligation
17 bonds or other evidences of indebtedness payable from the Bond Security and Redemption
18 Fund. The amount set forth in this Section opposite each project, or so much thereof as may
19 be necessary, is hereby appropriated and payable from the proceeds available from the sale
20 of general obligation bonds, unless a different source of funding is indicated. Where such
21 a different source of funding is indicated, the corresponding amount set forth, or so much
22 thereof as may be necessary, is hereby appropriated and payable from the source of funding
23 indicated; provided, however, amounts appropriated and payable from federal funds may be

1 encumbered or expended only to the extent such amounts shall have been committed or
2 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,
3 construction, and major repair projects appropriated by this act may be retained until
4 completion of the project, even if no bona fide liability exists on the last day of the fiscal
5 year.

6 This Act shall constitute the comprehensive state capital outlay budget for the 2016-
7 2017 Fiscal Year. Projects set forth which are payable from the proceeds available from the
8 sale of general obligation bonds shall have the priorities as indicated. The Request for Line
9 of Credit form used by the Attorney General and Bond Counsel in evaluating Louisiana
10 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed
11 with the Commissioner of Administration, State Bond Commission, and State Attorney
12 General. No general obligation bonds shall be sold, nor cash lines of credit granted to fund
13 any lower priority project prior to the sale of general obligation bonds or the granting of cash
14 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter
15 provided. This prohibition against funding a lower priority project shall not apply upon a
16 showing of an impossibility or impracticality either to proceed with all unfunded higher
17 priority projects or to proceed with the funding of such projects or any part thereof through
18 the issuance of general obligation bonds for any reason. Such showing shall be stated in
19 reasonable detail in a certificate or certificates signed by the state agency responsible for
20 administering the funding, and filed with the Commissioner of Administration and the State
21 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by
22 the Commission that proceeding with such a project or the funding thereof through the
23 issuance of general obligation bonds is impractical or impossible, the Commission may then
24 proceed with the sale of general obligation bonds or the granting of cash lines of credit
25 without regard to the priority of the unfunded projects determined to be impossible or
26 impractical.

27 Upon recommendation by the state agency responsible for administering the funding,
28 if it is determined at any time that proceeding with the project or with the funding thereof
29 is no longer impossible or impractical, the State Bond Commission may rescind the

1 certificate of impossibility or impracticality and may proceed with the project or with the
2 issuance of general obligation bonds or the granting of cash lines of credit to fund the
3 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),
4 upon reviewing certificates as described above and determining that proceeding with such
5 project or the funding thereof through the issuance of general obligation bonds is impossible
6 or impractical, may designate a lower priority for such project. The Board's determination
7 and lower priority designation shall be submitted to the members of the Legislature for their
8 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the
9 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of
10 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written
11 request of the appropriate legislators and agency, the Board determines that an adjustment
12 to a project description originally set forth in such capital budget adopted by the Legislature
13 for a current fiscal year is necessary to correct a mistake in a project description, clarify a
14 description, change the scope of a description, or make any other adjustment the Board
15 deems necessary to implement the purpose of the project, such adjustment shall become
16 effective only upon the approval by majority vote of the elected members of each house of
17 the Legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the
18 Louisiana Revised Statutes of 1950.

19 If such approval is granted, notification by the chair or secretary of the Board of the
20 results of the balloting shall be transmitted to the State Bond Commission, which may then
21 proceed with the sale of general obligation bonds or the granting of cash lines of credit for
22 each change approved upon request of the Commissioner of Administration in accordance
23 with the general rule.

24 With respect to Priorities 1 through 5, a lower priority project may be moved to a
25 higher priority only upon a showing of an emergency or other cause not reasonably
26 anticipated by the Legislature, which shall be stated in reasonable detail in a certificate
27 signed by the head of the appropriate department, political subdivision, or agency and filed
28 with the Commissioner of Administration and the Board. Upon a determination by the

1 Board that such project should be moved to a higher priority because of an emergency or
2 other cause not reasonably anticipated by the Legislature, the Board shall designate a higher
3 priority to the project. The matter then shall be submitted to and be subject to the same
4 approval by the members of the Legislature in the manner previously indicated in this
5 Section. If such approval is granted, notification by the chair or secretary of the board of the
6 change of priority shall be transmitted to the State Bond Commission, which then upon
7 request of the Commissioner of Administration, may proceed with the sale of general
8 obligation bonds or the granting of cash lines of credit in accordance with the general rule.
9 As to projects within a priority, the State Bond Commission acting on requests submitted by
10 the Commissioner of Administration shall determine when such project, or phases thereof,
11 shall be funded. In making such determination, the State Bond Commission shall consider
12 the amount of proceeds of general obligation bonds to be made available in light of money
13 and capital market conditions; the expenditure requirements of the project; the time required
14 for architectural plans and drawings, public bidding, and site acquisition and preparation;
15 availability of receipt of federal monies; litigation affecting the undertaking or completion
16 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and
17 other items of a similar nature bearing upon the possibility or the necessity to commence a
18 project or any particular phase thereof.

19 Any other provision of this Act to the contrary notwithstanding, projects described
20 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the
21 following conditions: (1) Funding is necessary to complete or additionally fund a project
22 located elsewhere in the capital outlay act. Determination of such condition shall be made
23 by the head of the appropriate department or agency by means of a certificate to that effect
24 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such
25 change and if approved by a majority of each house of the Legislature it shall be funded, or
26 (2) unless required by an emergency or other cause not reasonably anticipated by the
27 Legislature, to be in accordance with procedures set forth in this Section. However, the State
28 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which
29 represents that portion of construction contracts which were let during a previous fiscal year,

1 or construction contracts which will be let during the current fiscal year, but which will not
2 require cash expenditures during the year. Such non-cash lines of credit, when combined
3 with previously sold bonds or with higher priority bonds or lines of credit, or with funds
4 appropriated from other sources, will provide sufficient appropriated funds to award
5 equipment or construction contracts. Contracts shall not be awarded without approval of the
6 Division of Administration.

7 Upon approval by the State Bond Commission, and subject to compliance with its
8 policies and procedures and the procedures set forth herein, a line of credit providing for the
9 use of funds in anticipation of the sale of general obligation bonds may be granted to the
10 appropriate administering agency or department from the Comprehensive Capital Outlay
11 Escrow Account, or if there is not a sufficient amount available in such account, from other
12 available state cash in the state treasury, for capital improvement projects for which bond
13 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds
14 for such projects, unless the attorney general advises that an impediment exists to the valid
15 issuance of the bonds on the date such line of credit is granted.

16 All bonds that are to be repaid, in whole or in part, by revenues generated by the
17 project shall be designated as "Reimbursement Bonds". The State Bond Commission shall
18 enter into such agreements as are necessary to provide that the agency or subdivision, whose
19 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption
20 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as
21 determined by the State Bond Commission.

22 Priority 1 general obligation bond funding shall be limited to:

23 (1) Projects and amounts which were previously authorized by Act 26 of the 2015
24 Regular Session of the Legislature; and which were granted cash lines of credit by the State
25 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2015-
26 2016.

27 (2) The reauthorization of the portion of the outstanding Fiscal Year 2015-2016
28 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in

1 Fiscal Year 2016-2017 and therefore must be converted to Cash Lines of Credit in Fiscal
2 Year 2016-2017.

3 (3) Commitments made in the Higher Education Desegregation Settlement
4 Agreement.

5 Priority 2 general obligation bond projects are for the completion of plans and
6 specifications, land acquisition, site preparation, or for construction which will begin during
7 the fiscal year. It is presently anticipated that the listed projects will require the sale of
8 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

9 Priority 3 general obligation bond projects are for the preparation of plans and
10 specifications, land acquisition, site preparation, or for construction and shall be limited to
11 funding for the portion of construction contracts which will not require cash expenditures
12 during the fiscal year. The projects in this category shall be considered future year projects
13 in the State's five year capital outlay plan. It is presently anticipated that the listed projects
14 will not require the sale of bonds or extension of lines of credit during the fiscal year.

15 Priority 4 general obligation bond projects are for the preparation of plans and
16 specifications, land acquisition, site preparation, or for construction and shall be limited to
17 funding for the portion of construction contracts which will not require cash expenditures
18 during the fiscal year. The projects in this category shall be considered future year projects
19 in the State's five year capital outlay plan. It is presently anticipated that the listed projects
20 will not require the sale of bonds or extension of lines of credit during the fiscal year.

21 Priority 5 general obligation bond funding shall be limited to funding for the portion
22 of construction contracts which will not require cash expenditures during the fiscal year.
23 These funds, when combined with previously sold bonds or with higher priority bonds on
24 lines of credit, or with funds appropriated from other sources, will provide sufficient
25 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the
26 award of these contracts.

27 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)
28 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of
29 Transportation and Development is authorized to enter into contracts or agreements for

1 projects approved pursuant to the Highway Priority Program, Airport Construction and
2 Development Priority Program, Port Construction and Development Priority Program, and
3 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced
4 during the fiscal year which do not require cash expenditures for the full contract or
5 agreement amount.

 27 other statutes affecting the capital outlay program for state government, state institutions,
 28 and political entities. No contract shall be awarded for any project prior to the granting of
 29 a line of credit or the sale of bonds by the State Bond Commission, determination by the
 30 State Treasurer that cash funding is available in the Comprehensive Capital Outlay Escrow
 31 Account for the project, or delivery of revenue bonds whose issuance is authorized in
 32 Section 1 of this Act.

33 Section 3. Payment for projects specified in this Act must be made by warrant
 34 submitted to the Division of Administration, Department of Transportation and
 35 Development, the State Treasurer or other administering agency as provided in Section 8,
 36 whichever is appropriate, only to the extent of funds required for immediate payment.
 37 Copies of invoices or other supporting documentation shall be submitted with warrants. In

4 require equipment to be leased under the State Lease-Purchase Act to be included in the
5 executive budget and approved by the Legislature through inclusion in the General
6 Appropriation Act shall be considered waived upon the inclusion of such equipment in this
7 Act. Projects contained in this Act may, at the direction of the Division of Administration
8 and with the approval of the State Bond Commission, alternatively be funded through
9 financing programs heretofore or hereafter provided by a public trust and public corporation
10 duly organized pursuant to R.S. 9:2341 et seq., having for its beneficiary the State and the
11 Louisiana Local Government Environmental Facilities and Community Development
12 Authority, pursuant to R.S. 33:4548.1 et seq.

13 Section 4. If at any time during the Fiscal Year 2016-2017, the Governor should

16 short or appear likely to fall short of the revenue estimates for the fiscal year and that a cash
17 deficit is likely to be incurred, the Governor shall take such steps as deemed necessary to
18 prevent the occurrence of a cash deficit. In the event that a capital outlay project funded in
19 this Act falls under an agency which is abolished or for which funds are not appropriated in
20 the 2016-2017 General Appropriation Act, then the funds appropriated in this Act for such
21 capital outlay projects shall not be expended unless deemed necessary by the Governor to
22 protect life or property. In the event that legislation is enacted which transfers facilities or
23 programs for which projects are funded in this Act, on behalf of one agency, institution,
24 department, or management board to another agency, institution, department, or management
25 board, then the projects in this Act shall be deemed transferred also.

26 Section 5. All monies appropriated by this Act and any applicable funds of a prior
27 capital outlay budget act adopted by the Legislature shall be deposited by the State Treasurer
