EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. Proposed law provides relative to certain fees established by the Board.

REVENUE EXPLANATION

Proposed law is projected to increase SGR revenues in the LA State Board of Architectural Examiners. According to the Board, the intent is to increase the current fee by \$25 in state FY 18, which would result in a total revenue increase of approximately \$75,000.

In FY 15, the Board collected \$56,350 in initial registration, renewals, and delinquencies from 417 in-state and 631 out-of-state architectural firms practicing in Louisiana. The current fee for registration, renewal, and delinquency is \$50. Proposed law authorizes the Board to charge all architectural firms a fee of no more than \$300 for issuing certificates of authority, for renewals, and for delinquency fees. The Board states that it intends to increase the fee from \$50 to \$75 dollars for in-state firms and from \$50 to \$150 for out-of-state firms, and it projects revenues of \$10,425 for in-state firms and \$64,600 for out-of-state firms for a total of \$75,025 in FY 18. The FY 18 estimate includes assumptions made by the Board regarding revenue gained by collecting fees from 20 in-state and 10 out-of-state firms that had previously been unregistered yet that were assumed to be practicing in Louisiana. The Board expects the number of architectural firms practicing in Louisiana to increase at 2% annually after FY 18.

NOTE: For illustrative purposes, if the board raised the fee to the maximum of \$300 allowed under proposed law for all firms rather than from \$50 to \$75 as suggested for in-state firms and \$50 to \$150 as suggested for out-of-state firms, the SGR increase would total \$271,000 in FY 18, and SGR is assumed to increase as per a 2% increase in the number of boards licensed annually.
